

“Chemi Chukebi” for Turkeys

Vitamin–mineral–enzyme feed additive for daily feed enrichment of chicks and turkeys

Manufacturer: LLC “Biotecs”, Georgia

General Information

Composition (per one package):

Vitamins (A, D3, E, K3, C, B1, B2, B3, B6, B12),

Minerals (Ca, P, NaCl, KCl, CaI2, MgSO4, Choline chloride, CaCO3, CaHPO4, Sodium selenite, H3PO4),

Trace elements (Fe, Cu, Mn, Zn, Co),

Enzymes (Xylanase, Amylase, Protease),

Antioxidants (Ethoxyquin, Butylated Hydroxytoluene (BHT)),

Preservatives (Citric acid, Thyme extract, Rosemary extract).

Presentation: Packed in 250 g sachets.

Storage conditions: Store in the manufacturer’s original packaging in a dry, cool place protected from light at 15–25°C.

Keep out of reach of children.

Shelf life: 18 months.

Properties

The mineral complex, trace elements, fat- and water-soluble vitamins, carbohydrate-digesting enzymes (xylanase, amylase, protease), and antioxidants included in the additive ensure the daily nutritional requirements of turkeys.

The composition supports normalization of metabolism during unbalanced feeding, positively affects poultry growth and productivity, and increases resistance to stress.

Method of Use and Dosage

The feed additive is used to enrich and balance the feed of chicks and turkeys.

- Mix one 250 g package into 30 kg of complete feed.

Special instructions: The product is not a complete feed; it is an additive to the main feed ration.

Personal Precautions

When handling the product, follow general hygiene and safety rules. Use personal protective equipment (protective clothing, safety glasses, respirator). After handling, wash hands and face thoroughly with warm water and soap.
