

## **KUMIRATI**

**(Brodifacoum)**

**Rodent control (rodenticide) product**

**Manufacturer: LLC “Biotecs”, Georgia**

---

### **General Information**

**Kumirati is a ready-to-use granulated bait for rodent control.**

**Composition:**

**Brodifacoum – 0.005%**

**Storage conditions:**

**Store in a dry place protected from light at a temperature not exceeding 20°C.**

**Presentation:**

**Granulated bait in 60 g and 1 kg packages.**

**Shelf life:**

**1.5 years from the date of manufacture.**

**Keep out of reach of children.**

**Dispose of unused product in accordance with regulatory requirements.**

---

### **Properties**

**Kumirati is a rodent control product with high rodenticidal activity against rats and mice (house mice and field mice).**

**It is applied as bait into burrows to create a toxic feeding zone.**

**Rodent mortality begins 3–5 days after ingestion of the product.**

---

### **Method of Application and Dosage**

**The product is used in areas of rodent habitation and movement.**

**It may be applied in:**

- **Residential buildings**

- **Industrial facilities**
- **Settlements**
- **Surrounding areas of buildings**
- **Public gathering places**
- **Agricultural fields and cultivated areas**

**The bait should be placed:**

- **Under protective covers**
- **In special bait boxes or containers**
- **On thick paper sheets**
- **On disposable paper or plastic plates**
- **On metal or polyethylene sheets**

**Dosage:**

- **Indoors and enclosed premises:**  
**60 g per 10–20 m<sup>2</sup>**
- **Agricultural fields and cultivated land:**  
**2–3 kg per hectare**

**For complete rodent eradication, double treatment of the object with a 10-day interval is recommended.**

---

### **Personal Safety Measures**

**During work, observe general hygiene and safety rules established for rodenticide handling.**

**For personal protection use:**

- **Protective clothing**
- **Gloves**
- **Safety goggles**
- **Tweezers or polyethylene spoon for bait placement**

**Avoid contact with skin and mucous membranes.**

**In case of accidental contact, rinse thoroughly with plenty of water.**

**Smoking and eating during handling are strictly prohibited.**

**After completing work:**

- **Wash protective clothing**
- **Wash hands thoroughly with warm water and soap**

**In case of accidental poisoning:**

- **Immediately stop working**
- **If swallowed, induce vomiting**
- **Administer activated charcoal**
- **Seek medical attention immediately**

**When used according to instructions, the product is safe for service personnel.**
