

Annotation

Oxytetracycline Eye Ointment
Oxytetracycline hydrochloride

Eye ointment for veterinary use, intended for all animal species.

Composition

1 g of ointment contains:

Oxytetracycline hydrochloride – 0.01 g

Description

Yellowish or yellow-colored ointment. Phase separation may occur during storage.

Pharmacological properties

The product is a topical antibiotic.

Oxytetracycline is a broad-spectrum antibiotic active against Gram-positive and Gram-negative bacteria, rickettsiae, and the causative agents of trachoma and ornithosis.

Its antibacterial mechanism is based on inhibition of microbial protein synthesis at the ribosomal level.

According to the degree of impact on the body, the eye ointment is classified as a low-hazard substance (Hazard Class 4, according to State Standard 12.1.007-76).

Indications

Used for the treatment of infectious eye diseases in animals, including:

- **Conjunctivitis**
- **Blepharitis**
- **Trachoma**
- **Corneal lesions**
- **Other bacterial eye infections**

Adverse reactions

When used according to instructions, side effects and complications are generally not observed.

Contraindications

Increased individual sensitivity of animals to the components of the product.

In case of allergic reaction, discontinue use, remove the ointment with a sterile gauze swab, and if necessary, administer antihistamines and symptomatic therapy.

Target species

All animal species.

Dosage and administration

The ointment is applied to the inner eyelid and gently distributed over the entire conjunctival sac.

Use 3–5 times daily until recovery.

Single dose per animal: 0.2–0.4 g.

Withdrawal period

Zero days.

Special instructions

No special precautions required.

Storage conditions

Store in a dry, dark place at 15–25°C.

Shelf life

2 years.

Packaging

20 g ointment in a polyethylene tube, hermetically sealed with foil and closed with a white polypropylene cap.

Pharmacotherapeutic group

Anti-infective agent, antibiotic.

ATCvet code: QS01AA04

For veterinary use only.

Keep out of reach of children.

Manufacturer:

LLC "Biotecs", Georgia, Tbilisi, Iumashev #8.
